

Downloading the report

Reports can be located and downloaded from multiple locations within the Hub using the **Download Report (.PDF)** button, including:

- **Order** and **Order Detail** pages
- **Results** and **Sample Detail** pages

What's in a report?

Reports include a comprehensive set of data and information, including:

- Basic contact and date information for the order/card
- Sample information (field size, soil, crop, straw)
 - Laboratory results (pH, P, K, Mg)
 - Recommended inputs (fertiliser, lime)
 - Recommendation notes
- Grass silage

NOTE: downloaded reports can be found in the default download location for your computer, tablet, or phone. In order to open and view the contents of a PDF report, devices must have a PDF reader installed.
